

luxury &
convenience

home elevators by
 **savaria**

slim
luxury

Classic at its finest.

Your choice of luxury MDF or stainless steel cab, finished with stainless steel fixtures and automatic slim doors on the cab and landing. Refined elements include a touchpad phone on the cab operating panel (COP), and upgraded cab rollers for an ultra-smooth ride.

Luxury MDF in Ebony shown

Create a lifetime home

Your dream home deserves a dream elevator. Adding luxury and convenience for today also provides easy accessibility for all, making your home barrier-free for years to come.

Whether you are renovating or building new, a Savaria home elevator will enhance your home and its resale value. You demand high quality and excellent value for your investment; when you choose Savaria, you get the best of both worlds. A Savaria elevator is luxurious value, built reliably – just for you.

Customize your solution

Your home is a reflection of your personal style; your Savaria home elevator can be too. Create the perfect solution tailored to your unique needs and design sense, from a wide selection of model and configuration options, finishes, and accessories.

Or, eliminate the guesswork with pre-selected finishes and features, designed to work beautifully together. Choose from three upgrade packages – slim luxury, ultimate black or glass elegance – created to bring you distinct styling and popular options at significant savings.

ultimate
black

Make a bold statement.

Blackened stainless steel fixtures and integrated touchpad phone on luxury MDF, with matte black automatic slim doors on the cab.

Savaria Eclipse machine roomless elevator

Luxury and convenience, in less space than traditional elevator designs.

Requiring no machine room and minimal overhead drive space, the Eclipse is well suited for homes where space is limited. This design installs quickly and seamlessly, and provides a smooth and stable ride.

The Eclipse is also an environmentally-friendly choice; a counterweight system reduces motor effort – and therefore power consumption – and no hydraulic fluid is required. Durable chain drive technology means few wearable components, and lower maintenance costs.

Choose the Eclipse HD version with heavy-duty components and a commercial-style car sling for higher capacity up to 950 lb, and cab up to 48" wide.*

Savaria Infinity hydraulic home elevator

The ultimate smooth, quiet ride.

With gradual acceleration and deceleration, your ride starts and stops smoothly, automatically levelling at each landing. The Infinity's high efficiency hydraulic drive system is dependable – and compatible with the use of LEED-qualified Hydro Safe hydraulic vegetable oil – while the submersible pump and motor are whisper quiet. In the unlikely event of an emergency, simply pull a knob to manually lower the elevator.

Choose the Infinity HD version if a higher capacity or larger cab size is needed – it is suitable for up to 1,400 lb and available with a cab up to 54" wide.*

*Sizes higher than 15 square feet and 950 lb capacity available where code permits

Beauty, brawn & brains

Your Savaria home elevator is built with care using reliable components to provide you with dependable performance, and to meet or exceed the strictest elevator, electrical, mechanical and building safety guidelines.

Behind the beautiful exterior is one of the smartest brains around; the microprocessor-driven controller is demonstrably reliable and designed for up to 6 stops.

Choose from two feature-packed models with options to suit virtually any configuration: the Eclipse or the Infinity.

Luxury MDF in Pearl Matrix shown

glass
elegance

Clearly modern.

Framed glass automatic slim doors on the cab and landing open into a glass cab with your choice of unfinished veneer or melamine COP wall. Upgraded finishes and a touchpad phone complete the look.

Unfinished birch veneer with brass fixtures shown

luxury standards, unlimited options

Create your own personal elevator from our wide selection of options. Choose from a range of cab styles and sizes, then select your finishes to complement and complete your solution. You can even have your own contractor finish your elevator on site.

Elevator Cab Interiors

Your options include finished hardwood or unfinished veneer cabs in traditional species including oak, cherry and maple. We also offer scratch and fade-resistant luxury MDF panels in a variety of colors and finishes. Our standard elevator includes your choice of melamine or unfinished MDF, and white ceiling with 4 LED pot lights.

From automatic sliding doors to traditional gates...

choose from the widest range on the market to finish your home elevator perfectly.

Automatic Slim Doors

Add convenience and an elegant, modern appearance to your Savaria home elevator with automatic slim doors. These commercial-grade doors can be used as a complete system, or in combination with a swing-style landing door. Finish in stainless steel, powder coated paint, or framed glass.

Bifold Doors

A simple, automatic solution for cab doors. Select from architectural white or stainless steel.

Accordion Gates

Featuring a sturdy hard hinge to prevent deflection, accordion gates tuck discretely away to leave an unobstructed entry. Choose from a wide selection of panel colors and frame finishes. Add an automatic opener for convenience and ease of use.

specifications

Standard specifications

- Capacity: 750 lb, 950 lb, 1,000 lb or 1,400 lb (Infinity only, code permitting)
- 2 stops with up to 10' of travel
- Fully automatic operation
- Running speed: 40 ft/min (Eclipse) or 36 ft/min (Infinity)
- Illuminated automatic push button operation on hall call stations; in-use indicator lights
- Digital display (floor and directional indicator) in car operating panel (COP)
- Available alpha numeric button marking
- Homing feature
- 80" or 84" cab height
- ¾" melamine or unfinished MDF cab trimmed in black, anodized clear or bronze aluminum
- Surface-mount telephone
- 36 month limited parts warranty

Safety features

- Certified elevator door locks
- Emergency battery back-up for cab lighting and lowering
- Manual lowering with hand crank (Eclipse) or valve (Infinity)
- Audible "beep codes" cue user if action needs to be taken for unit to operate (e.g. close landing door)

Drive systems

- Eclipse: energy efficient variable speed 2 hp motor drive with motor brake and slack chain brake system
- Infinity: self-contained submersible hydraulic pump and 3 hp motor; various speed valve with soft start/stop

Optional features

- Automatic slim doors available for 84" or 96" cab heights, in standard 29.5" and 35.5" clear opening configurations, as well as custom sizes
- Bifold doors (Type 1 and 2 cabs only)
- Power gate and power door operators
- Digital display hall calls
- Keypad phone or phone box
- See color chart for details on finishes available

Additional Eclipse options

- Machine roomless controller in hoistway
- Running speed up to 50 ft/min (code permitting)
- Upgraded roller guides for a smoother ride
- Counter-weight safety brakes (necessary when habitable space is below elevator)

Configuration options

- Up to 6 stops over 50' of travel*
- Custom cab height up to 96" (108" clear overhead required)
- Concurrent landings/openings
- Eclipse HD: cab size over 15 square feet (up to 48" wide), and capacity up to 950 lb; cabs with clear width over 42" and automatic slim doors have steel cab with choice of overlay panels
- Infinity HD: cab size up to 54" wide, and capacity up to 1,400 lb

* Eclipse model can be customized to 60' of travel in some jurisdictions, ask your Savaria dealer for details
